4 Bedroom OasisBioHome

1,769 Sqft - 164.34 m2

If you wish, you can request the inclusion of an underground fridge with your order. This innovative design allows you to keep your food fresh in an environment that requires no electricity, making it an eco-friendly and cost-effective solution.

The structure features cutting-edge technology made from advanced polymers. The main assembly can be completed in just five days, followed by an additional six weeks for waterproofing, technical installations, interior partitions, earth covering, garden landscaping, interior finishes, and furnishing. This ensures a quick yet thorough setup for your sustainable living space.
