

ECO-GREEN

Tennessee - USA

The only way to truly experience our Eco-Green Structures is to stand inside one.

Curves are primal. Humans lived in harmony with Earth for thousands of years.

Ecuador

Ecuador

Sweden

Closed envelope earth-sheltered structures can lead to significant savings of 60% - 70% on heating and air conditioning costs.

Cancun

Wisconsin - USA

Blend harmoniously with the environment.

Curved structures work with the forces of nature and are more resistant to climate extremes.

Our Eco-Green structures can be configured to Passive House Standards.

Exterior roof and other repairs are significantly reduced in a home that breathes with you and for you.

A healthy living roof continually produces oxygen, lowering the CO2 impact of the structure.

Kurt Blake was the first person in Mexico to manufacture FRP composite surfboards over 30 years ago. Since then, Blake Industries has expanded into additional product lines.

Over 135 composite home and rental structures have been shipped from the Blake family's Cancun manufacturing facility to over 19 countries and counting...
