

WE MAKE DREAMS COME TRUE

MODELS & PRICES

www.WonderfulStructures.com

Self-sustaining homes, designed to operate completely off the grid, independent of traditional urban utilities. They use natural resources to fulfill essential needs. Our Bio-Homes can be assembled in just 5 days, followed by an additional 6 weeks for waterproofing, technical installations, interior partitions, soil covering, furniture, and decoration. Made from Fiber Reinforced Polymers and locally sourced materials, they minimize reliance on external inputs, resulting in significant cost savings.

PRICE CATALOG 2026

PRICES INCLUDE

FRP shell components, galvanized fastening systems (bolts, nuts, and expansion bolts), and a generic building dossier, which includes structural calculations, material specifications, fire-code compliance documentation, waterproofing test reports, and core engineering for the technology.

Also included are the floor plan set, assembly guide, construction manual, and repair kit.

PRICES DO NOT INCLUDE

Foundation installation, retaining walls, electrical systems, plumbing, HVAC systems, doors and windows, interior flooring, interior walls, cabinetry, fixtures, appliances, water sealants, insulation, soil preparation, or garden coverings.

METAL-FREE COMPOSITE ENGINEERING NOW AVAILABLE

Non-Metal Living is a design approach that replaces traditional metal components with advanced composites and high-performance polymers, including PEEK fastening systems, to eliminate corrosion, reduce electromagnetic interference, and maximize structural durability.
