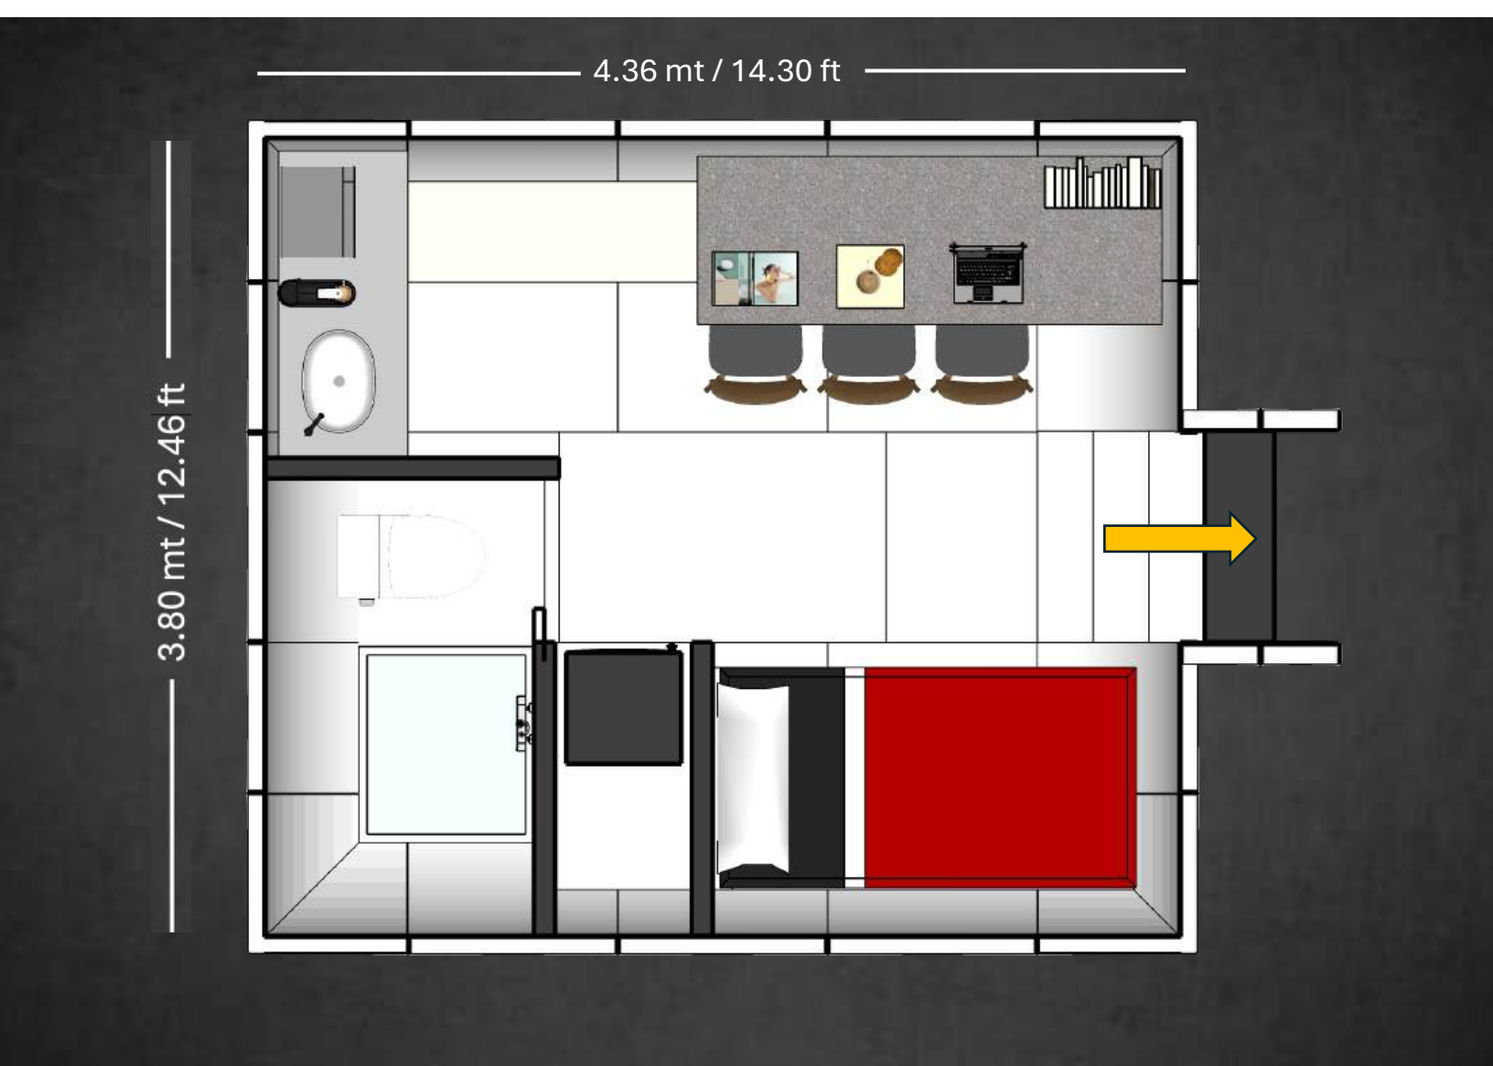
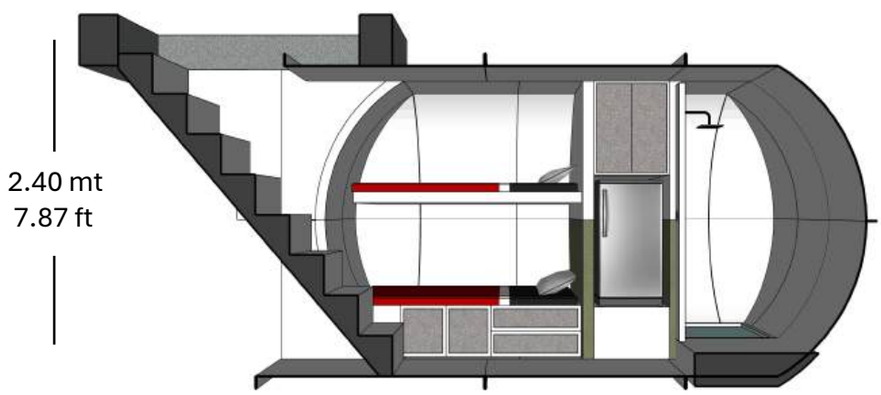
Kratos Bunker Small

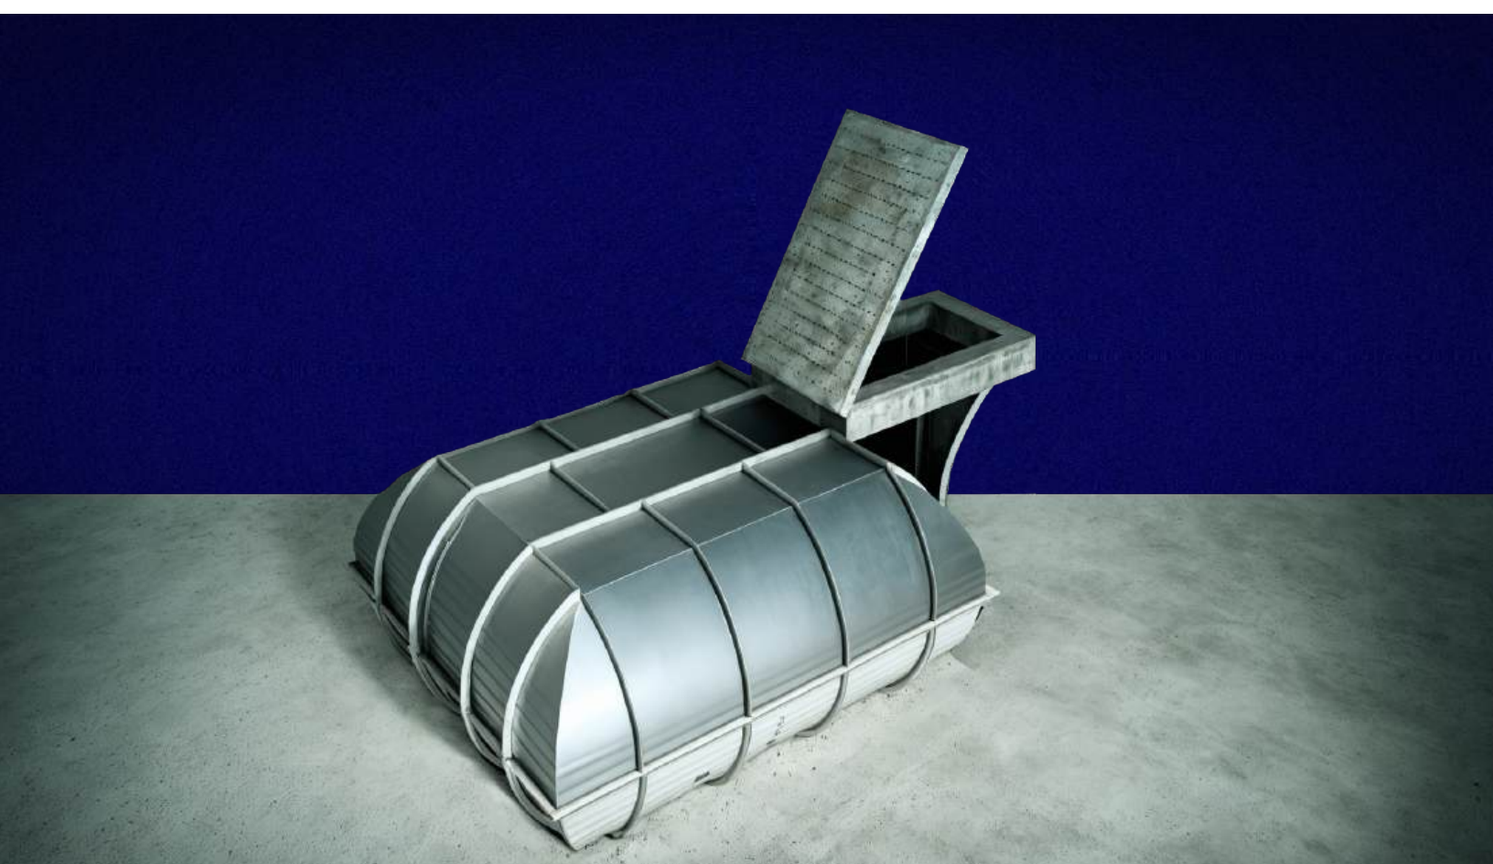
178.33 Sqft - 16.56 mt2

Wonderful Structures has developed this comfortable model with the intention of integrating, in a single space, the basic needs of a family of four—allowing them to remain safely sheltered for as long as necessary during any type of emergency, whether due to a natural disaster or hostile threat.



Made from next-generation, ultra-lightweight, and high-resistance polymers, this structure is corrosion-resistant and prevents mold or contaminant buildup. Its smooth, rounded walls are designed for easy cleaning and low maintenance, ensuring long-term durability and hygiene in any environment, whether for everyday use or emergency survival situations.



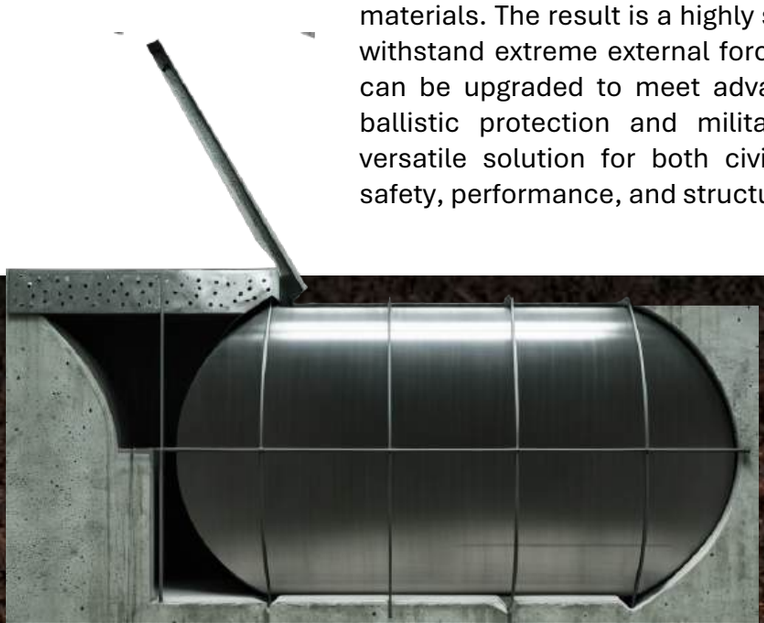


Wonderful Structures

ARK BUNKERS

PATENT PENDING

Our technology has been carefully developed and tested by expert architects and engineers specializing in structures and advanced materials. The result is a highly stable and resilient system designed to withstand extreme external forces. In special scenarios, the structure can be upgraded to meet advanced resistance standards, including ballistic protection and military-grade specifications—making it a versatile solution for both civilian and defense applications where safety, performance, and structural integrity are critical.



Note: Our bunkers are delivered without interior furnishings. Wonderful Structures provides the structural system for client assembly, including a complete set of floor plans, an Assembly Guide, and contact information for complementary technology providers. These complementary products may vary depending on the specific requirements and preferences of each client.
